An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Claims 13-37, drawn to a non-elected invention, have been cancelled.

Authorization for this examiner's amendment was given in a telephone interview with Kitisri Sukhapinda on June 29, 2004.

The following is an examiner's statement of reasons for allowance: Que, Anal. Chem. 2002, 74, 5184-5191 is considered to be the closest art. However, it is not available under 35 U.S.C. 102 (A) because the inventive entity of the instant case is the same as authorship of the article. The claims are considered to be fully supported by application 60/426,919. As such, Que, Anal. Chem. 2002, 74, 5184-5191 is not considered to be prior art. Gjerde (U.S. Patent No. 6,066,258) and Liao (U.S. Patent No. 5,647,979) are considered to be the closest prior art because Gjerde (U.S. Patent No. 6,066,258) discloses a monolith with a cyano group and Liao (U.S. Patent No. 5,647,979) discloses bisacrylamide as a crosslinking agent. The case has been allowed because the claimed combination would not have been obvious from Gjerde (U.S. Patent No. 6,066,258) and Liao (U.S. Patent No. 5,647,979).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
